Having been at the academic staff of the Indian Military Academy, Dehradun, the Officers Training School, Madras (now OTA, Chennai), the Army Educational College and Centre, Pachmarhi, and the Director of the Institute of Military Law, Kamptee (now New Delhi), I get somewhat nostalgic to note the aspirations of the Vidya Deep Sainik School. With an outlook of entire humanity as one family', and carrying a rewarding history of contribution to the field of military service in Bharat, through impartation of requisite quality education in general, the institution may rightly expect that its students would continue to move forward with confidence, pride and enthusiasm.

My perception is that school learning should be based not merely on knowing things but also on things fished out through creativity. Accordingly, I am happy to note that the vision of the school authorities duly calls for hard work, open communication, team work and a high level of responsibility on the part of the teachers and the taught. The school staff is devoted to prepare the students for life groom them to face the challenges of tomorrow and encourage them to be socially relevant Targeting at excellence with personality development, the ultimate goal of the institution is equipping the students with strong values, along with a set of wings to carry them far and high. The students are groomed to become confident, duly articulate and ready to step into the society with dignity, honour and integrity. This closely resembles with credo of the Indian Military Academy that places the safety, honour and welfare of the country on top, the honour, welfare and comfort of one's subordinates coming next, and own ease, comfort and safety coming last always and every time.

Education is a partnership among the students, parents, community and the academics. The school endeavors play its role with utmost sincerity and competence it is expected that the other partners would make their contribution with equal enthusiasm and sincerity

Man's achievements in the field of science and technology have helped to improve the material conditions of living. What we need today, is a transformation of the soul. Education should serve not only to develop one's intelligence and skills but also help broaden one's outlook and make one useful to society and the world at large. It must result in purifying one's perception. Even technology must be dedicated to the promotion of high ideals and human values. Education should help to make students the embodiments of human values. It is said, "Though no one can go back and make a brand new start, anyone can start from now and make a brand new ending." The future of our children lies in our hands, let us jointly hold hands and make them true human beings, worthy of all mankind and achieve a high level of living, involving our mind, intellect and consciousness. School is a constantly transforming entity like the flowing waters, igniting little lamps of hope and wisdom. My ultimate

endeavour, as a proud Principal of this great entity, had been not only to maintain the flow i.e to churn out better individuals but also to transform their immediate environment by equipping the faculty with never educational strategies and training, developing the infrastructure, facilitate a steady blossoming from the playgrounds to the hostel to new academic block to cadets' mess and so on and most significantly altering the mindset of the cadets with the help of ex-boys, resource people and dignitaries from varied fields. Today SS Jhansi is recognized as an institution of excellence that nurtures intellectual and academic pursuits, provides adequate opportunities for co-curricular and extra-curricular activities and creates a conducive environment for overall development of young

inquisitive minds when they enter the portals of this vibrant institution. No wonder it sends out some of the brightest minds into the world, who carry their education no matter where they go. National Defence Academy is the dream of every cadet of Vidya Deep sainik school. The school plays a pivotal role in actualizing this dream of the cadets and leaves no stone unturned in enabling them to reach the portals of their aspirations in life.
